Office Action Summary

Art Unit: 1714

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4 and 9-12, drawn to a multilayer pearl lustre pigment having a refractive index of more than 1.8 and a plastic composition and a method of using thereof.

Group II, claim(s) 5-8, drawn to a method of making layered pigment.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The instant pigment which were made by a different method from the instant Group II is known as evidenced by DE-A-198 02 234 of EP Search Report, and the pigment in Group II does not have any particular property such as a refractive index of the Group I.

A telephone call was made to Mr. Zelano on March 3, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is

Art Unit: 1714

advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
